USB Type-C Multiport Hub With Wireless Charger

Maximum functionality for any laptop with USB Type-C! This compact and cool hub allows to connect multiple devices simultaneously, including 2 external monitors. The hub contains wireless charging module. You can place it on top of the hub, or use it separately for your gadgets that support wireless charging. The hub looks stylish, takes up minimum of space and helps to arrange wires on your desktop. The device is "plug-and-play" and it does not require any additional software or usage manuals. Just plug it into the USB Type-C port of your laptop and enjoy the order and convenience!
